Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant has amended claim 1 in the paper entered 7/19/04. Pending claim 1-5 are examined below.

Claim Rejections - 35 USC § 103

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,758,464 to Hatton in view of U.S. Patent No. 5,002,620 to King.

Regarding claim 1, Hatton discloses a retaining wall having a base made of blocks (fig. 2: see bottom row of blocks), a wall assembly made of blocks and a plurality of spaced apart vertically elongated reinforcing strips (fig. 2: 17) secured to the face by a plurality of fasteners (fig. 2: 19) comprised of nails or screws directly engaged to the wall (column 3: lines 59-65) which extend through the strips into the blocks. However, Hatton does not disclose the blocks as being made of fiber reinforced cellular cementitious material. King discloses the use of a fiber reinforced cellular cementitious material (abstract, line 1). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Morton by using a fiber concrete, as disclosed by King, in order to increase the strength of the blocks.

Regarding claim 2, King discloses the fiber concrete as being made from a cementitious material mixed with water, fiber (column 1, lines 64-65) and an aerating material (column 1, lines 66-67).

Regarding claim 3, Hatton in view of King discloses the basic claim structure of the instant application but does not disclose specific percentages of the combined materials. Applicant fails to show criticality for specifically claimed dimensions, therefore it would have been an obvious design choice to use the dimensions such as specified in these claims.

Regarding claim 4, King discloses the cement as being made of ash and silica (column 1, line 65) but does not disclose specific percentages of the materials. Applicant fails to show criticality for specifically claimed dimensions, therefore it would have been an obvious design choice to use the dimensions such as specified in these claims.

Claim 5 is rejected for reasons cited in the rejections of claims 2 and 4.

Response to Arguments

Applicant's arguments filed 7/19/04 are moot under new grounds of rejections.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

Art Unit: 3635

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Basil Katcheves whose telephone number is (703) 306-0232. The examiner can normally be reached on Monday-Friday from 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Friedman, can be reached at (703) 308-0832.
